GIGHUB

Where Students Learn, Earn, and Grow

[Home](#)[Gigs](#)[Chat](#)[Profile](#)[Contact](#)

ABOUT GIGHUB

Closed Circuit System

GigHub is a campus-exclusive freelance marketplace designed specifically for Jagannath University (JnU) students.

Dual-role Architecture

Every student operates from a single account simultaneously as both buyer and seller — no role selection required

Networking & Collaboration

GigHub bridges current students and alumni for collaboration, mentorship, networking, and project-based work

ENHANCING STUDENT
OPPORTUNITIES

CORE OBJECTIVES

Verified student identity for a campus-only trusted ecosystem

Gig marketplace + job board + peer tutoring in one platform

Escrow-backed transactions to protect clients and freelancers

1:1 messaging, push notifications, and review-based trust ratings

Peer tutoring /tuition exchange at zero platform fee

Secure authentication & student identity management

Job posting & bidding

Escrow backed payment & withdrawal

Real time messaging & push notifications

Mutual reviews and ratings system

Unified student dashboard (buyer + seller views)

KEY
FUNCTIONALITIES

FUNCTIONAL REQUIREMENTS

FR-A	Authentication & Identity	FR-F	Payments & Escrow
FR-B	Profile Management	FR-G	Messaging & Notifications
FR-C	Gig Marketplace Creation	FR-H	Reviews & Trust
